TALHA ABDULLAH BANGYAL

talhabangyal@outlook.com | +923144968013 | talhabangyal | talhabangyal | Portfolio | Lahore, Pakistan

PROFESSIONAL SUMMARY

Artificial Intelligence student at Superior University with hands-on experience in AI/ML, LLM fine-tuning, computer vision, and full-stack development. Developed AI-powered applications using Python, PyTorch, Flask, Next.js, and NestJS. Seeking AI Engineer or Software Engineer roles focused on building intelligent, real-world solutions.

EDUCATION

BS Artificial Intelligence | 3.29/4.0 *Graduation in 2027*
The Superior University, Lahore

BS Artificial Intelligence *2022 - 2025*
FAST National University, Islamabad

ICS *2020 - 2022*
Punjab Group of Colleges

Matriculation (Science) *2018 - 2020*
BISE Sargoda

PROFESSIONAL EXPERIENCE

AI Developer | EntraCloud (Private) Limited June *2026 - September 2026*

- Worked as an AI Developer Intern at Entracloud Private Limited, contributing to AI/ML development and intelligent application solutions.
- Assisted in developing, testing, and integrating AI models using Python, with a focus on model performance, debugging, and practical applications.

PROJECTS

HireVision - Final Year Project | Model Training, TensorFlow, OpenCV, NLP | UNDER DEVELOPMENT

- HireVision AI, an automated interview platform integrating AI-powered voice/video interviews, NLP-based candidate evaluation, and behavioral analysis for recruitment.

Edusense | Python, Flask, OpenCV, Face Recognition | GitHub Repository

- Implemented an AI-powered attendance system using OpenCV and face recognition for automated student identification, attendance tracking, and Supabase database management.

MedXanalysis | LLM Fine-Tuning, AI Development, Full-Stack Integration | GitHub Repository.

- Built a responsive manufacturing website featuring secure payment processing, automated lead capture forms, and speed optimization.

DameosAI Web Portals | PHP, MySQL, JavaScript | www.dameosai.com

- Developed and maintained web portals implementing core features, responsive UI, functionality, and seamless user experiences.

TECHNICAL SKILLS

Languages:	Python, JavaScript, PHP, C++
Backend:	Node.js, PHP
Frontend:	React.js, BootStrap, Tailwind
Databases:	MySQL, PostgressSQL, Supabase
AI / ML:	PyTorch, TensorFlow, OpenCV, YOLO, LLM Fine-Tuning
Tools and Stacks:	Git / GitHub, Linux, Figma, Canva, Google Colab, GCP, Azure, Microsoft Intune, Cloud Management

VOLUNTEER AND HONORSHIPS

Member Security Team | Daira - Olympaid at FAST NUCES

- Supported event security operations, maintained participant safety, and coordinated crowd management during university events.

Member Registrations Team | Daira - Olympaid at FAST NUCES

- Managed participant registrations and assisted event coordination

General Member | FDMS - FAST NUCES

- Contributed to FDMS society activities by supporting event coordination.

CERTIFICATIONS AND PROFESSIONAL REGISTRATIONS

- **Introduction to Gen AI** | Google Cloud
- **AI For Everyone** | DeepLearning.AI
- **Introduction to Python** | DataCamp
- **Programming for Everybody** | University of Michigan
- **Verified Freelancer** | Pakistan Software Export Board (PSEB), MOITT
